| <i>A Message From City Manager Tom</i> | 7 |

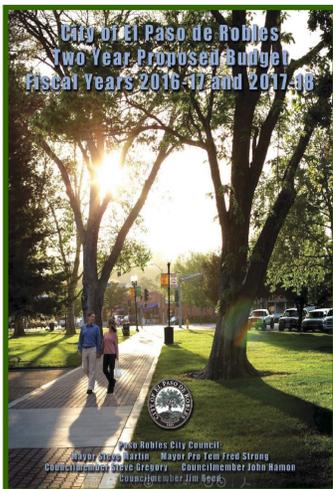

The Paso Robles City Council, in an effort to increase repairs to city streets and sidewalks, authorized an accelerated plan to move Supplemental Sales Tax projects forward, and added a number of other projects funded by Gas Tax. The projects approved include:

- A traffic signal at Creston Road and Lana
- A protected left turn on the signal at Creston Road turning north onto Golden Hill
- Union Road construction from Golden Hill to the Hwy 46 right-of-way
- Spring Street, 1st to 10th (which is already underway)
- A grant-funded study for adding pedestrian crossing to the 24th Street bridge over the railroad
- Hot Spot repairs to Creston Road to prepare for a full street improvement in a few years
- Completing design for Sherwood Road so it can be built in 2017
- Airport Road improvements at the box culvert near Huer Huero Creek
- Annual Slurry Sealing & Chip Sealing
- Annual Crack Filling and Sealing
- Annual Hot Spot Repairs
- Annual Sidewalk & Curb Ramp Repairs and Replacements
- Annual Pavement Striping and Markings
- Annual Street Tree Trimming

Crack Filling & Sealing are some of the least expensive but most important parts of street repair and maintenance. Keeping water from getting under the road is very important to preserving the condition of the base and preventing potholes.

Slurry Sealing and Chip Sealing are ways to put a new surface on a road that is otherwise in good condition. This can extend the life of a road by about ten years and put off more expensive maintenance.

Hot Spot repairs are focused on areas that are known problems (like the intersection of Ramada Drive and Hwy 46W at the south end of the city) and typically consist of digging up, repairing, and repaving a rectangular section of pavement in a specific spot rather than rebuilding an entire section of roadway.

IREAD
Summer reading is its best!

Children will win at reading this summer when they join the Read for the Win! Summer reading program at [The Paso Robles City Library](http://ThePasoRoblesCityLibrary.com).

Reading during the summer months helps children maintain and improve their reading skills, and the library's reading incentive program makes this fun for the whole family!

In addition to reading, children ages 3-12 will enjoy a variety of educational and entertaining events including storytelling, musical performance, and everyone's favorite magic show.

The summer reading program is free and is open to children of all abilities. Children who join the summer reading program exercise their minds and enter school in the fall ready to learn and succeed—and they have fun at the same time!

Visit the Library or Study Center weekly to check out materials, attend events, and collect prizes.

Dryer Fire Safety

Doing laundry is most likely part of your every day routine. But did you know how important taking care of your clothes dryer is to the safety of your home? With a few simple safety tips you can help prevent a clothes dryer fire.

- »»» Have your dryer installed and serviced by a professional.
- »»» Do not use the dryer without a lint filter.
- »»» Make sure you clean the lint filter before or after each load of laundry. Remove lint that has collected around the drum.
- »»» Rigid or flexible metal venting material should be used to sustain proper air flow and drying time.
- »»» Make sure the air exhaust vent pipe is not restricted and the outdoor vent flap will open when the dryer is operating. Once a year, or more often if you notice that it is taking longer than normal for your clothes to dry, clean lint out of the vent pipe or have a dryer lint removal service do it for you.
- »»» Keep dryers in good working order. Gas dryers should be inspected by a qualified professional to make sure that the gas line and connection are intact and free of leaks.
- »»» Make sure the right plug and outlet are used and that the machine is connected properly.
- »»» Follow the manufacturer's operating instructions and don't overload your dryer.
- »»» Turn the dryer off if you leave home or when you go to bed.

AND DON'T FORGET...

Dryers should be properly **grounded**.

Check the **outdoor vent** flap to make sure it is not covered by snow.

Keep the area around your dryer **clear** of things that can burn, like boxes, cleaning supplies and clothing, etc.

Clothes that have come in contact with **flammable substances**, like gasoline, paint thinner, or similar solvents should be laid outside to dry, then can be washed and dried as usual.

FACT

- ❗ The leading cause of home clothes dryer fires is failure to clean them.

City of Paso Robles - New Recruitments

Library Staff Assistant II

Under general supervision, incumbent is responsible for specific support activities for day-to-day library services. Positions for the Library are at the circulation desk, Library Study Center, reference desk and children's area. Evening and weekend hours may be required. This position can generally expect 16-18 hours per week, but no more than 20.

Maintenance Specialist II—Wastewater Treatment Plant

Under direct or general supervision performs a wide variety of semi-skilled work in the construction, modification, maintenance, repair and operation of electrical, mechanical, preventive maintenance and repair duties in a Wastewater Treatment Plant. Performs other related duties as assigned.

Maintenance Specialist III—Wastewater Treatment Plant

Under general supervision, provides lead direction, training and work review to maintenance crew. Performs a wide variety of skilled and semi-skilled electrical, mechanical, preventive maintenance and repair duties in a Wastewater Treatment Plant. Performs other related duties as assigned.

Each applicant must submit a completed City employment application and supplemental questionnaire by the filing deadline. Persons interested in applying can do so online at www.PRCity.com/Jobs.

Hardcopies of the application and questionnaire(s) are available at Paso Robles City Hall, located at 1000 Spring Street, or by contacting Human Resources at (805) 227-7234 or Jobs@PRCity.com.

Driver Awareness Training

On July 6, the Human Resources division organized training through the California JPIA for 30 of the City's employees. The workshop taught participants about proper City vehicle use, what to do if employees are involved in an on-duty accident, safe driving habits, and the various weather elements that can affect a driver's safety on the road.
