To Spring Street Businesses and Residents:

Ferravanti Grading & Paving has been contracted by the City of Paso Robles to perform Street Maintenance on Spring Street from 16<sup>th</sup> to 24<sup>th</sup> Street. This project is being funded with the  $\frac{1}{2}$  cent Supplemental Sales Tax passed by the citizens of Paso Robles in November 2012.

As part of the street maintenance we will be rehabilitating the asphalt, repairing concrete, sewer line, and water valves as well. We will have Traffic Detour's and No Parking signs set up off and on during the construction phase. The most challenging phase will be once we begin Grinding and Paving the road surface. During the paving operations there could be up to 20 minute delays travelling through Spring Street. There will be flaggers on-site to direct traffic during these times.

Residents and Business customers will have access to their properties at all times, however there may be times when there will be delays.

The project will last approximately 3-4 months weather permitting. We hope to complete the work by the end of December. Please call with any questions or concerns.

Thank you
