Drought Response: 2016 Update

Conservation and Outlook

- February water conservation projected to fall short of State mandate for the month (22% from target)
- City has achieved mandated conservation for the June 2015 – February 2016 period
- On-track to exceeding 28% conservation requirement by ~1.5%

Drought Response: 2016 Update

What's next?

- Emergency water conservation regulations have been extended through Oct 31st, 2016
- The City's conservation standard for March – Oct. 2016 is 24% (relative to same months in 2013)
- City's current Level 2 Mandatory Restrictions will remain in effect to assist the community in maintaining sufficient conservation and complying with the extended conservation regulations
- City's landscape and high-efficiency toilet rebates will be open to new applicants beginning Feb. 16th
