Engineering Plan Checking On Call Services CDD No. 18-02

Date Issued: January 2, 2018

A. Introduction

The City of Paso Robles (City) is requesting qualifications from qualified consultants to provide Engineering Plan Checking On-Call services. Currently the City is not adequately staffed to perform this work. The City is interested in generating a list of qualified consultants specializing in this type of work to draw from as needed. While the exact list of the City's engineering on-call plan checking services is unknown at this time, consultants should expect on-call services will be required to help facilitate plan checking engineering tasks on a week to week basis.

Workscope:

Engineering Plan Checking Services

The selected consultant(s) will be responsible to perform miscellaneous engineering and planning services related to the plan checking of private onsite and public offsite development projects.

The City's goal is as follows:

- To develop a "short list" of qualified engineering firms or individuals to assist staff with the review of onsite and offsite projects that are processed through the City's development review process.

Consultant may be required to provide a wide variety of services related to municipal engineering. This includes, but is not limited to:

1. Review of private development projects and plans to insure consistency with grading, stormwater, and engineering standards. This includes review of grading, drainage, low impact development, water, sewer, and other utility plans.
2. Review of public improvement plans to insure compliance with City standards related to roads, stormwater, water, sewer and other utilities.
3. Review other engineering or architectural plans or reports as requested by the City.

Agreement Management:

The selected consultant will be expected to assign a single point person who understands the overall agreement and can manage paperwork associated with it. This person does not need to be assigned to any of the individual projects, but should be available to listen and follow up on concerns regarding performance. Cost proposals will be received after scoping meetings, and may include the cost of the scoping meeting. The City will evaluate the proposal upon receipt and negotiate work scope further as needed. The consultant will receive a Purchase Order or separate contract after the proposal scope and cost has been accepted, signaling the start of the work.

B. Submittal Deadline

Three (3) copies of the Consultant's qualifications must be submitted no later than **5:00 p.m. on Friday, January 26, 2018**.
