CITY OF PASO ROBLES IS CONDUCTING THE NATIONAL CITIZEN SURVEY

1,500 Residents will receive surveys in the mail

PASO ROBLES, CA – Between October 1st and November 17th Paso Robles will be conducting the National Citizen Survey, a random and anonymous survey asking residents “How are we doing?”

The survey measures public opinion in eight key areas of community livability. In each domain, residents report their perceptions about the quality of their community and related services, as well as their own engagement within the community. The results will be used to assist in long-range planning, program development and policy-making.

Residents that receive the survey are asked to fill it out and mail it back by November 17th. The survey is completely random and the results will be reported in group form only.

The survey results will be available at the December 19, 2017 City Council meeting.
