# Conservation Report: 2018 Update

**Production and Mandated Conservation Target During Drought Emergency**

# Conservation Report: 2018 Update

- City's current water supply is sufficient to meet projected peak 2018 demand without mandatory conservation.
- City has greatly reduced gross per-capita water use (-33%) over the last 10 years
- City has already surpassed its long-term conservation goals established by SB x7-7 (20 x 2020).

# Conservation Report: 2018 Update

However,

- Precipitation still below average
- Drought conditions are possible
- State may mandate some level of additional demand reduction.

Recommendations:

- Maintain voluntary conservation (Level 1)
- Continue conservation program activities
