

CALGREEN CONSTRUCTION WASTE MANAGEMENT CERTIFICATION

CALGreen requires covered projects to recycle and/or salvage for reuse a minimum 65% of the nonhazardous construction and demolition waste.

Required Projects:

- Newly constructed buildings and demolition projects.
- Non-Residential: All addition and alteration projects.
- Residential: Additions and alterations to residential buildings that increase the structure's conditioned area, volume, or size.

Do you intend to use Paso Robles Roll-off or Paso Robles Landfill for solid waste management for your construction project?

YES NO

If no, you will need to provide receipts showing your project's compliance with the 65% organic waste recycling requirement prior to permit final and certificate of occupancy.
